

**TEAMWEAR  
WINTER**

2024 | 2025

**INTERNATIONAL**

## PREFACE

### DEAR SKI SCHOOLS, RACE TEAMS AND ASSOCIATIONS,

we are and will remain specialists in the field of TEAMWEAR: it is with great pleasure that we present to you our new collection for winter 2024/25. This collection is very special because it embodies not only our **love for winter sports**, but also our sense of **ecological responsibility** and our belief in a more sustainable future. All of this is topped with the latest technologies, clever functional details and outstanding materials. The products promise the highest performance and support you in the best possible way in your everyday life out on the slopes – **#madebypros**. Thanks to close cooperation with numerous **national and international associations** as well as the **Global Racing Team**, a TEAMWEAR collection has been created for **over 25 years** that is second to none - for pros by pros.

The **TANKO and TUNK** line is new. It emphasises the **responsible use of resources**. The DERMIZAX® material is 100% recycled and all other materials and accessories consist of approx. 95% recycled plastic bottles. The TANKO and TUNK products are designed to be not only functional and high quality, but also timeless and easy to combine thanks to the simple design. Thanks to the mix and match principle in monochrome shades (blue, red, brown, green) you can combine any jacket with any trousers.

In addition, we are pleased to present the **successor line** to TAMMO/TEMMO: the **TAMUL/TAMIR** line offers excellent value for money and has a runtime of three years. Here, too, the focus is on a high proportion of recycled materials.

Another exciting addition to our teamwear collection is the **new warming coat RACE PARKA UNISEX**, which was developed especially for coaches and athletes. With this innovative piece we are setting new standards in terms of functionality and warmth.

Together with the ZIENER team, I would like to take this opportunity to **thank you for your trust in us**. We will continue to do our best to offer you the perfect products for your work on the slopes.

I wish you all a successful winter season 2024/2025 and lots of fun discovering our TEAMWEAR catalogue!

Your Frank Burig

Thank you.

Please arrange a fitting appointment directly with your ZIENER retailer page 70. // There is no exchange & future order guarantee during the season!

**\*Color selection for individual colorways needs to be made by 02.03.2024.**

## WASHING INSTRUCTIONS FUNCTIONAL CLOTHING

Always check the care label before washing. Never use fabric softener as it swells the fibres and destroys the membrane. Please do not use powder detergents either. These clog the membrane's pores. It is best to use special detergent for functional clothing – this preserves and protects the membrane.

## WASHING INSTRUCTIONS GLOVES

Our gloves have sewn-in washing instructions that must be followed. Gloves with the 'Machine wash 30°' symbol can be washed on the gentle cycle. Do not use fabric softener or chlorine bleach. Gloves with the 'Hand wash' or 'Do not wash' symbols require special care.

## TEXTILE CARE SYMBOLS

On the labels inside the textiles/gloves/accessories you will find textile care symbols relating to washing, bleaching, drying, ironing and dry cleaning. These are the manufacturer's recommendations.

## MATERIALS

When it comes to material, fabrics are differentiated based on the nature of their fibres. These are divided into animal fibres such as wool and silk, plant-derived fibres such as cotton and linen, and man-made fibres such as cellulose and synthetics.

## ZIENER TEAMWEAR KONFIGURATOR

With our Teamwear Configurator you can create your desired outfit for the 2023/24 season directly from the comfort of your own home. You can choose from a number of different colour combinations and combine them according to your individual wishes.

## EXPLANATION FEATURES

We always do our utmost to support you and your teams with outstanding product features. To achieve this, we are constantly refining them. In this short video we show you the functional features that go into your ZIENER TEAMWEAR products.

## ZIENER ICONPEDIA

With the help of the ZIENER IconPedia you can look up the respective products' symbols. The symbols stand for certain technical properties and material qualities.

## TEAMWEAR REPAIR SERVICE

We want you to enjoy your favourite items for a long time. That's why we offer the TEAMWEAR REPAIR SERVICE. If the product breaks and it is not your fault, we will repair it for you free of charge. If it is your own fault, we can still repair it for you for a charge. It is very important to us that our products are useful to you for as long as possible.

## EXPLANATION 2- & 3-LAYERS

In 2-layer jackets, the membrane and outer fabric are joined and the lining is hooked into the jacket. In 3-layer jackets, the outer fabric, membrane and lining are laminated into one layer. The membrane is thus completely protected from friction from above and below, which means that the jackets are generally rated as more robust and durable.

## HOW TO DRESS WELL?

Use the layers principle to be prepared for all weather and temperature fluctuations, so that you don't sweat too much while exercising and thus cool down too quickly. High-quality functional clothing is important here, which you then layer: the first layer should be breathable and quick-drying, as it lies directly on the skin. The second insulating layer can be adapted to the temperature. A breathable, waterproof and windproof layer is recommended as the top layer.

## GENERAL INFORMATION

With this information notice, we would like to advise you of important factors concerning the waterproofness and breathability of our products that should be considered when buying the ZIENER Teamwear Collection.

SIZE CHART MAN

HOW TO MEASURE CORRECTLY

When it comes to teamwear, every detail counts. This also includes the ideal size. Find your perfect size with the help of our video (simply scan the QR code) and our size chart. Be impressed by the perfect cut and quality with a personal fitting (please arrange a fitting appointment directly with your ZIENER retailer, see page 70).

1. Body size
2. Chest width
3. Waist
4. Hip width
5. Arm length
6. Inside leg

- > Place the measuring tape around the widest part of the back of the hand (without thumb) and measure
- > Inch measurement = Glove size
